PROFESSIONAL SUMMARY

Detail-oriented Front-End Engineer with over 6 years of experience, specializing in the React.js ecosystem for the past 3+ years. Expert in building high-quality, responsive web applications using TypeScript, JavaScript, and modern build tools like Webpack. Proven track record of implementing intuitive user interfaces with a focus on web accessibility standards, efficient state management (Redux/Context API), and seamless RESTful API integration. Committed to writing clean, maintainable code and collaborating with cross-functional teams to deliver scalable frontend architectures in Agile environments.

TECHNICAL SKILLS

- Primary Framework: React.js
- Languages: TypeScript, JavaScript (ES6+)
- Build & Version Control: Webpack (Bundling/Optimization), Git
- State Management: Redux, Context API
- UI & Design: Responsive Web Design, Web Accessibility (WCAG/a11y), Reusable UI Components
- Testing & Quality: Unit Testing (Jest, React Testing Library), Debugging, Code Reviews
- API & Tools: RESTful APIs, Integration, Agile/Scrum, CI/CD, Modern Open-Source Libraries

PROFESSIONAL EXPERIENCE

Software Engineer – Hexaware Technologies

Oct 2023 – Present

- Design and implement scalable, high-performance user interface components using React.js and TypeScript.
- Configure and manage Webpack for efficient module bundling, code splitting, and frontend performance optimization.
- Execute seamless integration of frontend applications with complex RESTful APIs to ensure real-time data flow.
- Utilize Redux and Context API for advanced state management across large-scale, stateful applications.
- Ensure application stability and quality by writing comprehensive unit tests using Jest and React Testing Library.
- Adhere to web accessibility best practices to ensure inclusive user experiences for all individuals.
- Collaborate with UI/UX designers and backend teams to define and implement intuitive, responsive UI architectures.
- Improved application load times and performance by 30% through profiling and asset optimization.

System Engineer – Tata Consultancy Services

Jul 2020 – Jul 2023

- Developed and maintained responsive web applications using React.js and JavaScript within an Agile/Scrum framework.
- Built maintainable and reusable UI component libraries, ensuring cross-browser compatibility and consistent design standards.
- Integrated RESTful APIs to connect frontend components with backend services, enhancing application functionality.
- Leveraged Git for version control and collaborated with geographically distributed teams to deliver high-quality code.

- Optimized frontend performance and resolved critical production issues through structured debugging and troubleshooting.
- Contributed to frontend architecture discussions to improve the scalability of internal UI tools.

Assistant System Engineer – Tata Consultancy Services

Jun 2019 – Jul 2020

- Resolved 15,000+ network and system issues, ensuring strict adherence to SLAs and infrastructure reliability.
- Performed root cause analysis and incident management in collaboration with development and operations teams.
- Assisted in troubleshooting technical bottlenecks and supported general IT infrastructure improvements.

EDUCATION

B.Tech in Computer Science – Indore Institute of Technology and Management

2019
